

# Baseline Characteristics of Participants (All Participants Randomized)

| Characteristic                   | Placebo<br>(N=86) | Xanomeline Low Dose<br>(N=84) | Xanomeline High Dose<br>(N=84) |
|----------------------------------|-------------------|-------------------------------|--------------------------------|
| Age (years)                      |                   |                               |                                |
| Mean (SD)                        | 75.2 (8.59)       | 75.7 (8.29)                   | 74.4 (7.89)                    |
| Median [Min, Max]                | 76.0 [52.0, 89.0] | 77.5 [51.0, 88.0]             | 76.0 [56.0, 88.0]              |
| Sex                              |                   |                               |                                |
| Female                           | 53 (61.6%)        | 50 (59.5%)                    | 40 (47.6%)                     |
| Male                             | 33 (38.4%)        | 34 (40.5%)                    | 44 (52.4%)                     |
| Race                             |                   |                               |                                |
| White                            | 78 (90.7%)        | 78 (92.9%)                    | 74 (88.1%)                     |
| Black Or African American        | 8 (9.3%)          | 6 (7.1%)                      | 9 (10.7%)                      |
| American Indian Or Alaska Native | 0 (0.0%)          | 0 (0.0%)                      | 1 (1.2%)                       |
